Yes No

NeSSIE Application Form

Max. 10 pages long; include any supporting documentation as an appendix to this form

WWW.NESSIEPROJECT.COM

1 Project Detail (please fill in using the attached word file)

The application must outline the project objectives and the technical challenge identified in this section. This could include:

- The corrosion challenge and technology gap that the applicant wants to tackle.
- The expected ability of the proposed challenges to overcome relevant barriers in the sector while enhancing innovation capacity and integration of new knowledge.
- A description of possible approaches on how to tackle the challenge that would require support by supply chain/ solution providers, still allowing input on specific technical solutions.

2 The Company and Project Delivery (please fill in using the attached word file)

The applicant must outline the companies expertise and experience in relation to delivering collaborative offshore projects. This could include:

- Previous delivery of offshore projects.
- Previous delivery of collaborative EU projects.

The applicant must outline the companies financial position and any additional finance they will require to deliver the demonstration projects developed.

The applicant must outline the implementation plan of the proposed demonstration project. This could include information on

- Availability and relevant experience of company staff to deliver the project.
- A plan of proposed work packages and timelines on delivery.
- Key outputs expected.
- Information on how project outputs will be disseminated among relevant stakeholders. and how any data developed on the project will be managed.
- The project management structures and governance procedures within the company.

3 Impact and Route to commercialisation (please fill in using the attached word file)

The applicant must outline the forecasted impact and the route fo commercialisation of project outputs in this section. This could include:

- The potential impact of the demonstration project on the business and the wider sector within European and global markets.
- IP considerations and strategy proposed to manage this.

NeSSIE Application Form

Max. 10 pages long; include any supporting documentation as an appendix to this form

WWW.NESSIEPROJECT.COM

- A description of how the solving the challenge reduces capital and/or operating costs, greenhouse gas emissions or both
- Information on the strategic impact of the project referencing EU strategic positions such as Energy Union, Emissions Targets, Renewable Energy Generation targets and other initiatives such as Blue Growth and Cohesion ambitions
- Information on the expected route to commercialisation. These do not need to be fully developed but a reasonable understanding will need to be evident in the submission.

4 Any other information relevant to the application

This section can include any other information the applicant thinks will add to their proposal. For example.

- CVs can be attached as appendices.
- Further technical details can be attached in the appendices if required.

Questions and Clarifications should be directed to

Mark Georgeson at info@nessieproject.com

The application shall be forwarded as a pdf file and emailed to

Mark Georgeson (info@nessieproject.com) and Janne Rydh (Janne.rydh@ri.se)

by 1700 hrs on the 7th of August 2018 (CET Time)

Privacy Notice and Confidentiality

All information collected in the Application form and received by taking part in the NeSSIE Competition (stage 1) will be treated confidentially. Only Scottish Enterprise, RISE Research Institutes of Sweden and the technical experts evaluating proposals will be able to access the documents handed in. Information will be held securely, the information will only be used in the context of the NeSSIE project and all parties involved will be bound by confidentiality agreements and policies in their organisations and through contracts where sub-contracting is used to work with experts to evaluate proposals. If anything in our policies and procedures is unclear, don't hesitate to reach out and let us know, by writing to (Mark Georgeson): info@nessieproject.com

By signing the Application Form, I agree with the present Privacy Notice and Confidentiality Statement
